

# Carbon Reduction Plan Template

Supplier name: Calabash Mint Limited

Publication date: 22<sup>nd</sup> February 2024

## Commitment to achieving Net Zero

Calabash Mint is committed to achieving Net Zero emissions by 2035

## Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

<b>Baseline Year: 2023 - This is our third reporting period</b>	
<b>Additional Details relating to the Baseline Emissions calculations.</b>	
<b>Baseline year emissions: 2023</b>	
<b>EMISSIONS</b>	<b>TOTAL (tCO<sub>2</sub>e)</b>
Scope 1 (Vehicle Fuel)	122.50
Scope 2 (Building)	8.30
Scope 3 (Included Sources)	
<b>Total Emissions</b>	<b>130.80</b>

## Current Emissions Reporting

Reporting Year: 2022	
EMISSIONS	TOTAL (tCO <sub>2</sub> e)
Vehicle Fuel	123.40
Building	9.50
Scope 3 (Included Sources)	
<b>Total Emissions</b>	<b>132.90</b>

## Emissions reduction targets

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

We project that carbon emissions will decrease over the next five years to **111.90** tCO<sub>2</sub>e by 2027. This is a reduction of **28.41%**

## Carbon Reduction Projects

### Completed Carbon Reduction Initiatives

The following environmental management measures and projects will be consider and or implemented since the 2021 baseline. The carbon emission reduction achieved by these schemes equate to 31.10 tCO<sub>2</sub>e, 18.96% reduction against the 2022 baseline and the measures will be in effect when performing the contract.

In the future we hope to implement further measures such as:

Company Vans to be Electric when infrastructure fully supports this type of vehicle.  
Company cars must be Hybrid or Electric from 2030

Consider ways to reduce the use of vans in the disposal of Clinical Waste by maximizing route efficiency

**Heating & lighting of Building:**

Encourage staff to adhere to the company environmental policy.  
Consider installing automatic lighting where feasible.  
Consider improving the building insulation to reduce energy use

**Offset our Carbon foot print**

Look at working with organisations which provide carbon offset options.

**Declaration and Sign Off**

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard and uses the appropriate Government emission conversion factors for greenhouse Gas Company reporting.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard

This Carbon Reduction Plan has been reviewed and signed off by the board of directors

**Signed on behalf of Calabash Mint**
